**Addendum to the Request for Proposals to Transport Compostable Materials for the Sonoma County Waste Management Agency**

1. The RFP references Exhibit E being a “cost matrix” for proposers to complete, but Exhibit E in the full packet and listed separately on the website is a list of current and potential sites. Where is the cost matrix?

The reference to the Cost Matrix referred to in Exhibit A (Scope of Work) is amended to be listed as Exhibit F. Exhibit F is included to this addendum.

SCWMA staff has determined that an extension of the deadline for this agreement is warranted, therefore the deadline for submission of a proposal to Transport Compostable Materials for the Sonoma County Waste Management Agency has been extended to November 16, 2018 at 3:00 P.M.
